

Process to become

QM Master Reviewer

Step 1: Complete Applying the QM Rubric (APPQMR/PRC) workshop

- The APPQMR now includes the Peer Reviewer Certification (PRC). It is designed for participants to learn and to apply the QM Rubric and process.

Step 2: Complete an application and Memorandum of Understanding (MOU)

- By successfully completing steps 1 through 2 and having online teaching experience within the last 18 months, you will be eligible to become a certified peer reviewer.

Step 3: Complete a minimum of two course reviews

- Peer course review assignments are based on expertise and eligibility.

Step 4: Complete Master Reviewer Online Course

- You will learn how to fulfill the administrative responsibilities of the QM Peer Review Team chair, ensure that the QM process is correctly implemented, and answer questions relating to the process and the application of the QM Rubric.

Congratulations! You are a certified QM Master Reviewer.

QM Independent Trainer

Step 1: Complete Applying the QM Rubric (APPQMR/PRC) workshop

- The APPQMR now includes the Peer Reviewer Certification (PRC). It is designed for participants to learn and to apply the QM Rubric and process.
- Although designed for participants who want to serve as QM certified peer reviewers, this course is ALSO a requirement for those intending to become trainers of potential reviewers. (You may also achieve peer reviewer certification if you are otherwise eligible).

Step 2: Complete Train the Trainer Training (TTT) Online Course

- Designed for those eligible participants who will be facilitating face-to-face Applying the Quality Matters (QM) Rubric (APPQMR) workshops at their institutions.

Congratulations! You are a certified QM Independent Trainer.
